EXPERIENCE

LOWE'S Bengaluru, India
GCP Data Engineer Aug 2025 – present

- **Led end-to-end migration** of Superset dashboards, Hive tables, on-premise datasets, and Oozie workflows to **Google Cloud Platform(GCP)**, ensuring seamless transition with zero business disruption.
- **Re-architected and optimized data processing workflows** by transforming **Dataproc**-based logic into automated **BigQuery** jobs, reducing processing time by **50%** and improving scalability and cost efficiency.
- **Designed and built vendor onboarding and rebuttal data pipelines from scratch**, ingesting real-time data from **Kafka**, transforming it through curated layers, and delivering production-ready **gold tables** for analytics and dashboarding.
- **Modernized legacy data ecosystems** by migrating and optimizing DB2 and Teradata pipelines to GCP, enhancing performance, reliability and maintainability.

AZIRA Bengaluru, India
AWS Data Engineer Jan 2024 – Aug 2025

- Analyzed marketing data to provide insights on DOOH areas, yielding a **15% increase** in campaign effectiveness.
- Hands-on development of scalable code for **Big Data analytics**, including preprocessing, analysis, and visualization of large datasets using **Spark**.
- Produced reports on competitor footfall, assisting in decision-making for opening new stores, resulting in **10% revenue growth**.
- Orchestrated data workflows using **Airflow** on **AWS** cloud platform, utilizing services such as **EMR**, **AWS EC2**, **AWS Glue**, **cluster on demand** for scalable computing resources, and **S3** for durable storage.

HOTWAX COMMERCE Indore, India
Data Engineer Jul 2022 – Feb 2023

- Designed and implemented a **CSV ingestion pipeline** with dynamic field mapping, enabling seamless integration of external datasets into Hotwax Commerce platform and reducing data onboarding time by **40%**
- Built scalable data transformation logic to process and standardize return order records, increasing data processing throughput by over **80%** and improving analytics accuracy for supply chain metrics
- Collaborated cross-functionally to develop **20+ data-driven** features by modeling front-end and back-end data structures, ensuring **real-time data synchronization** and consistency across distributed applications

EDUCATION

CENTER FOR DEVELOPMENT OF ADVANCED COMPUTING (C-DAC) Pune, India
Postgraduate Diploma; Big Data Analytics Mar 2023 – Sep 2023

- **Relevant Coursework:** Data Analytics, Big Data Technologies, Data Mining and Machine Learning, Data Warehousing and Business Intelligence, Distributed Computing and Hadoop, Data Visualization, Database Systems and SQL, Predictive Analytics

SHRI VAISHNAV VIDYAPEETH VISHWAVIDYALAYA Indore, India
Bachelor of Technology; Computer Science and Engineering Jul 2018 – Jul 2022

- Technical member of **Google Developer Student Club**, SVVV

PROJECTS

FORMULA 1 DATA ANALYTICS Aug 2023

- Conducted in-depth **data analysis** on F1 racing data to identify factors influencing race outcomes
- Implemented **machine learning models** to predict race results, utilizing features such as historical race data
- Created interactive visualizations in **Tableau** to present complex analysis results in an easily understandable manner
- Utilized **PySQL** & **PySpark** to retrieve required data, transform, and preprocess large datasets for model training

UBER DATA ANALYTICS Jul 2023

- Performed data analytics on Uber data using 2 concepts: **Python, SQL** and 5 tools: **GCP Storage, Compute Instance, Mage Data Pipeline Tool, Big Query, and Looker Studio**
- Analyzed dataset containing 100K+ daily rides; Designed project architecture, Data pipeline and Data model

ADDITIONAL

- **Achievements:** Solved 500+ Leetcode questions and 100+ AlgoExpert questions
- **Technical Skills:** AWS, Spark, AirFlow, SQL, Python, NoSQL, Excel, Jira, Hadoop, Hive, HBase, Cassandra, Applied Machine Learning, Shell Scripting, Java, DuckDB, MongoDB, Git.
- **Certifications & Training:** Azure DP-203**,** Big Data Analytics, Complete React Developer Bootcamp, Complete Web Developer Bootcamp
- **Soft Skills:** Organized, creative, good communicator, listener, motivator, leader, critical thinker, friendly, task-management, multi-tasking
